

Safe from Phishing

Deepnet SafeID Mini

oath Compliant

Deepnet SafeID Mini token is a mini-sized, dedicated hardware authenticator offering user real mobility and flexibility. By simply pressing the button, the token generates and displays secure one-time password every 60 seconds. It ensures correct identification and allows only authenticated users with authorized access to critical applications and sensitive data.

Deepnet SafeID Mini complies with OATH time-based specification. Deepnet SafeID Mini token provides the cost-effective two-factor authentication for ecommerce, enterprises and financial markets.

Key Features

- ◆ One-button operation
- ◆ Automatic power-off
- ◆ Strong two-factor authentication
- ◆ Eliminate the risk of password theft
- ◆ "Out-of-the-box" solutions
- ◆ Runs on RADIUS clients for remote VPN access
- ◆ Runs on Windows GINA for network access
- ◆ HTTP authentication for web logon
- ◆ LDAP and Active Directory database support
- ◆ Easy to integrate into your existing environment

Technical Specification

Algorithm:	OATH Compliant Time Based
Firmware:	ROHS Compliant
Dimensions:	45 x 19 x 6.5 mm
Weight:	11g
LCD:	6-8 digits numerical LCD
Battery:	Standard Lithium Battery
Battery Life:	3 Years (10,000 clicks)
Operating Temperature:	0°C - 46°C
Storage Temperature:	-20°C - 70°C
